MEMORANDUM FOR : Assistant to the Director

25X1A9a

SUBJECT : KY-9 Classified Telephone Networks

REFERENCE : Memorandum from Assistant to the
Director, 2 April 1962, subject as above,
ER-62-2052

1. At the same time I received the referenced memorandum inquiring about the need for CIA joining the KY-9 system, we were conducting an internal survey, at General McClelland's request, of all secure telephone requirements.

2. This survey disclosed that certain activities of DPD will require that DPD tie into the KY-9 network described in the attachment to your memorandum. Thus, there will be access within the DPD area to a station on the KY-9 net. For this reason, I would conclude that it is not necessary, for our purposes, to recommend that an additional KY-9 station be installed in the vicinity of the DCI's office.

HERBERT SCOVILLE, Jr.
Deputy Director
(Research)
